

What is a foldable solar panel?

Made for mobile camps and off-grid adventures, the 100W foldable solar panel is perfect for longer trips when you need more power without sacrificing portability. The foldable two-panel design makes it easy to unfold to collect power and folded with handles to carry away.

What are the features of a 100W solar panel?

Integrated QC 3.0 USB port, Type-C PD 60W port, and 20-28V 100W DC port, as well as 10-in-1 interchangeable connectors, alligator clips and DC cable make the 100W solar panel versatile to charge smartphones, tablets, laptops, DC electronics, and portable power stations. Portable and Durable.

Why should you buy a 100W solar panel?

Portable and Durable. - Portable design and lightweight 11.2lbs (5.1kg) makes the 100W solar panel easy to transport. - IP65 waterproof, inbuilt kickstands and rugged materials make the solar panel work under unexpected weather and last longer than other solar panels.

Is a 100W Solar Suitcase a good choice?

The size is also substantial, but you won't find a smaller 100w solar suitcase, so it's perfectly acceptable, and to be expected. It's nice that it consists of two 50w panels, so compared to a single 100w panel, it does fold up to be half the outer dimensions. Setup is really easy.

What factors affect the performance of a C100 solar panel?

A: C100 panel specifications are obtained in a lab setting (a near perfect environment for solar panel energy generation). There are certain factors that may diminish the panel's performance. Examples include humidity, air pollution, cloud coverage and obstruction from the sun.

How do I set up the alligator solar panel?

Setup is really easy. Connect the alligator clips to the battery, plug in the charge controller to the panel, and you're done. First time setup includes selecting the battery chemistry. And of course you will need to position the panels on-site for optimal exposure to the sun. Once it's installed, everything works as it ought to.
