delivered through the National Grid transmission network, to lower voltages that ...

Learn about the key differences between a corporation's own annual report and its 10-K report filed with the SEC. See how investors should use each.

High voltage high-frequency (HVHF) transformers have a crucial part in the realization of high voltage direct current (HVDC) isolated power supplies. Nevertheless, they are the bulkiest component in the system besides being one of the major contributors to the power losses. Special care is therefore required to design HVHF transformers. The main objective of ...

The summary of this annual report comes from the full text of the annual report. To fully ... RSM China (Special General Partnership) issued a standard unqualified opinion audit report for the Company. 6. When the Company went public, it was unprofitable and had not yet achieved profitability. Yes No. 7. The profit distribution plan or the plan of converting reserve fund into ...
