RV solar panels convert solar energy into direct current electricity (12V DC), which charges the RV's batteries and stores the electricity. Passing the 12V DC through an inverter converts it into 120-Volt AC (alternating current), which powers 120-Volt gadgets like a coffee maker. In short, with solar panels, you can power almost anything.

4 PCS SOLAR PANEL MOUNTING Z BRACKETS BougeRV set of 4 Z-bracket type mounting feet is designed to support the installation of single solar panel units, generally in off-grid installations. Perfect for RVs, boats, or other flat surfaces. The Z-brackets are universal - fit any solar electric panel with a standard aluminum frame and mounting holes.
