

Battery aluminum sheet price trend forecast table

Why are aluminum sheet prices rising in the UAE?

In November, the UAE spot market saw a notable increase in aluminum sheet prices due to limited supply and heightened demand from the automotive and construction sectors. The scarcity of essential materials like Bauxite, disruptions in the Panama Canal route, and strong downstream industry demand contributed to the surge.

How stable is the North American aluminium sheet market in 2023?

Aluminium Sheet Prices: The North American market for Aluminium Sheets in the fourth quarter of 2023 witnessed a mix of trends, indicating overall stability.

Why did aluminum sheet prices decline in December?

In December, the consistent trend in aluminum sheet pricing reflected reduced demand during winter and holidays, exacerbated by disruptions in trade routes, including the Panama Canal and the Red Sea, caused by drought and rebel attacks.

How did the US aluminum sheet market perform in Q4 2023?

The North American market for Aluminium Sheets in the fourth quarter of 2023 witnessed a mix of trends, indicating overall stability. The US spot market for aluminum sheets saw a decline in prices, in the initial period of Q4, linked to weakened demand from the automotive industry and increased macroeconomic uncertainty.

Why did aluminium sheet price rise in Q3 2023?

The Aluminium Sheet market displayed a stable price trend in the USA during Q3 2023. The price initially rose due to the US Federal Reserve's interest rate hike to curb inflation and stimulate demand. The photovoltaic system industry's growth also increased consumption.
