

What type of battery is a cheap one?

A FLA battery is the type of cheap car battery you are likely to encounter. Although its chemistry is the same as an AGM battery, the construction is different. The battery plates in a FLA battery are wrapped in a fiberglass mat.

Where can I find the lowest battery price?

While finding a great deal on batteries is one of the best ways to get the lowest price per battery, you may not be able to wait for a sale. If you're looking for the lowest daily prices on batteries, check out Amazon, Lowe's, The Home Depot, Walmart and Best Buy.

Is a cheap battery worth it?

Cheap batteries are not worth it, but very expensive batteries may not provide significant real-world benefits. For those living in colder climates, it's recommended to invest in the most robust battery they can afford.

Which car battery store has the lowest price?

In all cases, Walmart had the lowest price on car batteries. On average, Walmart car battery prices were 10% to 25% cheaper than AutoZone, PepBoys, O'Reilly Auto Parts, Advance Auto Parts (except online purchases), and Salvo Auto Parts. Say you want to buy a new battery for your car.

How do I get the best price on batteries?

When it comes to getting the best price on batteries, there are a few rules to follow: Comparing prices, waiting for deals and buying off-brand are three great ways to save. Using these methods, you can find great prices on batteries. "My one rule is that no one should ever buy a brand-name battery," says money expert Clark Howard.

Where can I buy a car battery?

If you are going to buy a battery from an auto parts store, Advance might be the best option. You can save nearly 30% off other auto parts stores, especially if you order the battery online. Very often, the company provides coupons for a discounted price. It's easy to find a battery that fits most vehicles at Advance.
