

The Buenos Aires Cruise Port is officially known as the Benito Quinquela Martín Passenger Terminal, situated at Av. Ramón Castillo 13. However, beware when using Google Maps, as typing in "cruise port Buenos Aires" may lead you astray to a different location across the city. You can click on the addresses, it is with a direct link to Google Maps. An important ...

El Proyecto RA-10 se localiza en el Centro Atómico Ezeiza (Provincia de Buenos Aires) e incluye el diseño, construcción, montaje, puesta en marcha y entrega para la operación de un reactor nuclear multipropósito, con un aporte de más del 80% de empresas e instituciones locales en tecnología y servicios asociados.

LOCIA Y COMPAGNIA S.A. is an Argentinian Company founded in 1975. Since its origins it has been dedicated to commercialize alternating current capacitors for illumination circuits, motors, and power factor correction systems, thus serving the markets of public energy distribution, luminaire manufacturers & electric motors.

The RA-10 Project is located at the Ezeiza Atomic Center (Province of Buenos Aires) and ...

El prototipo está siendo construido en el "Complejo Nuclear Atucha", Lima, provincia de Buenos Aires. La obra civil comenzó el 8 de febrero de 2014, momento en el cual el CAREM se ha ...
