

What is a control box capacitor?

Control box capacitors play an integral role in your submersible well pump system. They are responsible for starting up or running the motor. Over time, the well pump capacitors wear out, lose capacitance, and need replacing. Continued use may result in the capacitor blowing out, potentially causing damage to your motor or control box.

What is a SIP battery booster pack?

The SIP Battery Booster Packs range features compact, lightweight Rescue Pacs, with 12V DC outputs as well as Pro Boosters, Capacitor Boosters and Hybrid Boosters.

How many ucb450-60 boosters are left in stock?

Only 6 left in stock - order soon. UCB450-60,900 Peak Amp Racing Ignition Spark Cutent Booster, Voltage stabilizer, On Board Jump Starter for Car, Truck and Boat, Audio Amplifier subwoofer Booster, Engine Start Stop and go System
