

How can China and Africa support cooperation in the financial sector?

The CABC has also called on the governments of China and Africa to support cooperation in the financial sector by encouraging local currency settlements in trade and investment, creating a favorable policy environment for local currency settlements, and supporting RMB clearing business in Africa.

How can China improve production capacity cooperation in Africa?

African countries are diverse in their economic and social characteristics and have different industrialisation needs. In order to maximise economic and development benefits for both China and Africa, China can further strengthen its production capacity cooperation, while deepening its understanding of the local contexts.

Does China support Africa in energy development?

7.2.3.1 China is willing to support African exploring and utilizing energy resources, and encourage Chinese enterprises, on the basis of market principles, to participate in the upgrading of energy facilities in Africa and continue to carry out energy cooperation in hydropower and other fields.

Why is China a major economic partner in Africa?

These were established in line with the country's initial advantages and designed to boost industrial exports and encourage diversification. Further backed by its "going global" strategy, China has gradually become one of the major economic partners of the African continent in terms of trade, investment and development cooperation.

How does China cooperate with Africa?

In its cooperation with Africa, China applies the principles of giving more and taking less, giving before taking, and giving without asking for something in return. It welcomes African countries aboard the express train of China's development with open arms.

Are China and Africa a partnership of equals?

According to the white paper, "China and Africa in the New Era: A Partnership of Equals," Chinese companies over the last quarter century have helped African countries build or upgrade more than 10,000 km of railways, nearly 100,000 km of highways, roughly 1,000 bridges, almost 100 ports and 66,000 km of power transmission and distribution.

The Western media has been peddling lies that China's increased funding of projects in Africa is aimed at addressing China's overcapacity. They claim that as China struggles with its "overcapacity" in green products such as solar panels, Africa is its "dumping ground";
