

What is a solar mounting system manufacturer?

Solar mounting system manufacturers play a vital role in the solar energy industry by enabling the secure and efficient installation of solar panels. A solar mounting system manufacturer is a company that specializes in designing, producing, and supplying the hardware components necessary for the installation of solar panels.

Why should you install solar panels in China?

Because China is already a world leader in the intermediate and upper echelons of the PV industry chain, everyone likes to source solar mounting systems in China to help with their solar panel installation projects.

What is a solar mounting system?

After all, solar mounting systems are the ones that are used to fix solar panels on surfaces such as roofs, building facades, or the ground. In other words, solar mounting systems are the ones that solar installers will install in the buildings of their customers -- in a way, they are the heart and soul of the business. II.

Who is China Sunergy?

Founded in 2006, China Sunergy is a solar cell and panel products manufacturer based in Nanjing, Jiangsu. The company specializes in creating solar cells from silicon wafers, and they both use monocrystalline and multi-crystalline silicon solar cells for this. Their primary customer base is in China, but they also sell their products worldwide.

Where is China Sunergy made?

In fact, in May 2013, China Sunergy opened its first international manufacturing base in Turkey. This made the company the only Chinese solar cells and module manufacturer with a base in Europe. As of now, China Sunergy has a production capacity of 1.2 GW and an installed capacity of more than 1.4 GW all over the world.
