

# China's first lithium battery separator manufacturer

Who makes lithium ion battery separator?

JINHUI HI-TECH is the first manufacturer in China to produce Li-ion battery separators using wet process. The lithium-ion battery separator developed and produced by the company is famous in the global market for its advantages of stable quality and high cost performance.

How big was China's Lithium ion battery separator shipment in 2021?

China's Lithium ion battery separator shipment in 2021 was 7.9 billion square meters. The compound growth rate was about 54% in the past six years. The size of the global battery separator shipment in 2021 was 10.7 billion square meters.

Who is Sinoma lithium separator?

Sinoma Lithium Separator Co.,LTD.,founded in March 2016,belongs to China National Building Materials Group,specializing in the research and development,production,sales and technical services of high-performance lithium battery separators.

How big will China's battery separators be in 2021?

According to data,the total output of China's separators in 2021 will be 7.904 billion square meters,a year-on-year increase of 112.5%,and the global market share of China's separators will exceed 70%. Here Top 5 battery separator companies in China.

Why should you buy a lithium battery separator?

With the strong technical advantages of lithium battery separators, SENIOR has realized the localization of lithium battery separators, becoming the earliest separator company in China to export to other countries in batches.

Which battery separator company is still the leading player in the industry?

In the battery separator industry,SEMCORP (wet process)holds the largest market share. In Q1 of 2022,they shipped 1.07 billion square meters,accounting for 36.8% of the market share. Senior material (dry process +wet process) ranked second with a shipment volume of 360 million square meters in Q1 of 2022 and a market share of 14.9%.

SEMCORP Hubei is a joint venture founded by SEMCORP Shanghai and EVE Energy in the high-tech district of Duodao Area, Jingmen City, Hubei Province, with a total investment of 5.2 billion yuan.

CZMZ as one of the top 10 lithium ion battery separator manufacturers in China, has developed two categories of mixed coating separator products: MFS single mixed coating and MCS divided layered coating, which improve the high temperature stability and enhance the bonding force between the separator and the pole

## China's first lithium battery separator manufacturer

sheet, further improve the ...

As one of China's earliest companies engaged in the lithium battery separator business, Cangzhou Mingzhu's primary business is PE pipes, BOPA films, battery separators, composite piping systems, etc. Their lithium battery separator products mainly include the lithium battery dry method, wet method separator, and coated separator.

Shenzhen Senior Material Technology Co., Ltd. was established in September 2003 and listed in December 2016. It is a leading manufacturer in China's lithium battery separator industry, and has formed a strategic layout of one global headquarters, five production bases and overseas research and development institutions.

Here are Top 5 dry process separator companies in China. Top 5 dry process separator companies in China. 1. ZIMT. 2. SENIOR. 3. Huiqiang. 4. Yingbolai . 5. Zhongke. Top 5 dry process separator companies ZIMT. Company profile: Shenzhen Zhongxing New Material Technology Co., Ltd. (abbreviation: ZIMT) was established in 2012. It is a national high-tech ...

Company profile: UBE is one of the lithium ion battery separator manufacturers in the world was established in Tokyo in 1942, and its business scope covers mining, medical, building materials, machinery manufacturing, electric power and other fields, while chemicals and machinery are the company's main business.

INV will operate out of 26.7ha with the initial plan to produce a staggering four billion sq m of coated and wet-type separators for the lithium battery - the main thrust to generate power for EVs. The investment pledge is believed to be the highest by an investor this year and it demonstrates China's commitment and confidence in Malaysia.

Our ceramic separators for Lithium batteries preferably enable good ion conductivity to ensure higher energy and greater safety. No matter what style of battery separator you want, based on our extensive experience, we can manufacture it. In particular, our equipment supports the cutting of width of the film, making our product very flexible and meeting your specific needs. ...

SENIOR was established in 2003 by Shenzhen Xingyuan Materials, with the spirit of pioneering and innovation, and the courage to change. With the mission of "Xingyuan Film Creates New Life", it focuses on the fields ...

The company is a leading company in China's lithium battery separator industry. As of June 2017, the company has total assets of RMB 2.445 billion, and has formed a strategic layout of a headquarters, three production bases and overseas R & D institutions worldwide. Headquartered in Guangming New District, Shenzhen, the three major bases are: Shenzhen ...

## China's first lithium battery separator manufacturer

In 2016, Shenzhen Senior Technology Material sold 120 million m<sup>2</sup> of dry-process separators, ranking first in China, followed by Cangzhou Mingzhu Plastic Co., Ltd and Xinxiang Zhongke Science and Technology (GREEN) Co., Ltd.

CZMZ as one of the top 10 lithium ion battery separator manufacturers in ...

The Lithium-ion Battery Separator Market is expected to reach USD 5.42 billion in 2024 and grow at a CAGR of 17.60% to reach USD 12.17 billion by 2029. Asahi Kasei Corp., Toray Industries Inc., Sumitomo Chemical Co. Ltd, SK Innovation Co. Ltd and Ube Industries Ltd. are the major companies operating in this market.

The main customers of lithium battery separators include LG Chem, Samsung and well-known Japanese manufacturers, etc. Chinese customers include CATL, Wanxiang, Guoxuan Hi-Tech, BYDs, Farasis, Lishen, Lixin, Shanghai Delang and other leading companies in the new energy industry.

China's lithium battery separator industry began in 2002, developed fast from 2009, and entered a high growth path in 2014 as driven by the prosperity of new energy vehicles. The industry's market size grew from CNY 1.3 billion in 2013 to CNY 4.25 billion in 2017

Fitch Ratings-Shanghai-13 February 2023: Chinese battery separator producers are likely to benefit from robust growth in global demand for electric vehicles (EVs) and energy storage batteries, says Fitch Ratings.
