

Did Croatia get the green light for IE-energy's massive energy storage project?

Croatia got the green light from Brussels for a EUR 19.8 million grant to IE-Energy for a massive energy storage project.

Will ie-energy build the biggest battery system in southeastern Europe?

IE-Energy is planning to build a battery system of 50 MW, which means it would be the biggest in Southeastern Europe. The European Commission has approved, under the European Union's aid rules, a EUR 19.8 million Croatian aid measure in favor of energy storage operator IE-Energy.

Will ie-energy accelerate the decarbonization of Croatia's energy sector?

In addition, it will accelerate the decarbonization of the Croatian energy sector, according to the announcement. IE-Energy is based in Rijeka, Croatia's fourth-largest city. It joined the intraday and day-ahead markets at the Croatian Power Exchange (CROPEX) last year. Documents reveal the project is scheduled to start on December 1.

When will a 250 MW battery project start in Turkey?

Of note, a 250 MW project is under development in Turkey, with an envisaged capacity of 1 GWh. The batteries would be used for balancing services for the independent Transmission System Operator in Croatia (HOPS), domestic media reported. The European Union's documentation shows the project is scheduled to start at the beginning of December.

Phasebit is a premier manufacturer of lithium batteries in Croatia, specializing in in-house production of BMS systems and innovative energy solutions. Our expertise extends to inverters, DC-DC converters, and MPPT boards, driving advancements in green energy technology.

C.I.A.K. is a car battery market leader and it is also the number one company in management and recycling of lead-based car batteries. Powering your cars, boats, motors and trucks in Croatia for over 25 years! Car batteries for all types of passenger vehicles whose performances meet 99% of all needs. USAGE.

Croatia got the green light from Brussels to give a EUR 19.8 million grant to a domestic startup for a massive energy storage project. IE-Energy is planning to build a battery system of 50 MW, which means it would ...

The investment in Sunceco Battery, the future production facility plant in Croatia's Sisak city, is valued at EUR 220 million. Matt Darko Sertic, investor and owner of companies Applied Ceramics and Sunceco, said the factory should be built in three years and that it would occupy 35,000 square meters.
