Since summer 2021, the wholesale power price in the Czech Republic, the 4M countries and wider Europe have risen to unprecedented levels, driven up by the rising gas price, caused by its high demand and low supply, demand recovery as Covid-19 restrictions were lifted, and the anticipated coal phase-out. European forward prices on electricity suggest that high power ...

How can Czech organisations make the most of their renewable generation assets? Here's a review of energy storage in the Czech market. Q& A with Patrik Pinkos, Lead Sales Engineer at Wattstor Czech Republic. With coal dominating the energy mix, the Czech Republic has traditionally enjoyed low electricity prices and a steady supply of domestic fuel.
