

What is the Energy Storage Summit?

Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead. One scenario estimates Europe will reach 29.6 GWh of installed capacity by the end of 2024, marking a 72% increase YoY.

Why should you attend the Energy Storage Summit?

Over the past ten years, the Summit has gained recognition as the biggest, busiest, most informative, and best networking event in the European energy storage sector, where deals are made on site; generating efficient business for everyone who attends. workshops, an after-party, private networking dinners and much more!

How much energy storage does the EU need?

Over the next five years, the EU needs to achieve a mammoth 187 GW total installed storage capacity to keep on track. Of the 5GW currently under construction in GB, 3.5GW of this is set to come online in 2024 with pipelines continuing to expand into 2025. These are just some examples of the urgent need for energy storage deployment across Europe.

What is advanced compressed air energy storage (a-CAES)?

The company's patented Advanced Compressed Air Energy Storage (A-CAES) technology functions as an underground 'battery', utilizing mature supply chains and leveraging air, water, rock, and gravity to store and release energy.

The path to successfully deploying energy storage facilities has become more challenging as equipment supply, site control, project financing, addressing tax law changes and managing the interconnection queue continue to vex many developers.

This awards programme - brought to you by the publishers of Energy Storage Report - recognises and celebrates outstanding achievements in energy storage development, investment and finance in the renewable sector.. ...

Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead. One scenario estimates Europe will reach 29.6 GWh of installed capacity by the end of 2024, marking a 72% increase YoY.

As a pan-European event, the inaugural Aurora Energy Finance Conference explored how project sponsors and lenders from across Europe can mitigate risks by integrating technologies such as battery storage, deploying new business models like PPAs, better anticipating challenges like grid curtailment, and utilising

innovative financing structures ...

The US energy storage industry remained "remarkably resilient" during what most of us have found to be a difficult year - to say the least. Andy Colthorpe speaks with Key Capture Energy's CEO Jeff Bishop and FlexGen's COO Alan Grosse - two companies that made 2020 one of growth in their energy storage businesses - to hear what lessons can be learned ...

Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead. One scenario estimates ...

Understand the unique aspects of energy storage financing and enabling factors that reduce investment risk; How private sector representatives are seeing key opportunities and barriers for scaling investment in clean energy and ...

"Energy Storage Financing Opportunities and Barriers" focused on various aspects of financing energy storage, including steps and roles in the financing cycle and key enabling factors or barriers for energy storage finance. "Private Capital Mobilization for Energy Storage and Clean Energy" looked at how private capital is being deployed ...

Join us for an unforgettable evening where we showcase pioneering storage investors and lenders, outstanding storage developers, ground-breaking project finance and M& A deals, and the rising stars driving progress in the energy storage sector.

Industry Events. We're pleased to share these valuable energy storage and clean energy-focused industry events produced by CESA and/or other organizations.

Infocast's Solar + Wind Finance & Investment Summit in 2024 gathered an unprecedented number of leading industry players to network, make deals, and get fully briefed on the ...

The path to successfully deploying energy storage facilities has become more challenging as equipment supply, site control, project financing, addressing tax law changes ...

Industry Events. We're pleased to share these valuable energy storage and clean energy-focused industry events produced by CESA and/or other organizations. Featured CESA Events. 2024 CESA Market Development Forum October 22-23, 2024 Berkeley, CA. The MDF is an invite-only gathering of the energy storage ecosystem, including regulators, utilities, and CESA members, ...

3rd Solar Energy Storage Future ASIA 2024 will take place in Bangkok, Thailand on 2 July 2024. The SESFA provides a platform for exchange and learning for leaders in the new energy industry around the world. In our past conferences, there were government officials, experience sharing from internationally renowned

companies, and presentations by experts in ...

Organised by Solar Media, the publisher of Energy-Storage.News and the host of the Energy Storage Summit series, the awards aim to recognise the innovation, dedication, and pioneering spirit that drive the industry forward.. Since its inception in 2014, Energy-Storage.News has been at the forefront of documenting and supporting the rapid growth of the energy ...
