

This high-performance LED emergency battery backup supply is ideal for LED lights fixtures with 0-10V Dimming System. Tested to CSA C22.2 NO. 141 Field or factory installation; Ambient temperature: 32°F-122°F; High case ...

Get up to 5 years of battery life with the high-temperature, low-maintenance Ni-MH battery. 120-277V input and 25-48V DC output; Ni-MH battery with up to 90 minutes power; Output wattage of 8W, 12W or 15W; Listed for field installation ...

Emergency Operation: When the AC power goes out, the emergency pack detects the power outage and automatically switches to the emergency mode. The LED load is illuminated, for a ...

12V 100Ah Lithium Iron Phosphate Solar Battery for RV Truck Forklift Lift Truck Field Emergency Backup LiFePO<sub>4</sub> Phosphate Battery Advantages: It has excellent safety performance and high efficiency and stability working ...

Sure-Lites UL 924 compliant LED emergency battery pack with automatic voltage sensing, constant wattage output, external battery disconnect, and LiFePO<sub>4</sub> battery. When AC power ...

Sylvania Emergency Battery Backup, Field Installable Non-Dimmable, 120 VAC Nominal, 8 W Nominal, 120 to 277 VAC Charge, 100 mA Charge Current, 24 hr Charging, For Use With: ...

The EMB07 is a field installed 7-watt emergency battery backup for LED luminaires. This product uses a Lithium-Ion battery which outperforms older type batteries. Lithium-Ion recharges quickly and lasts much longer. The kit comes with the battery and control electronics (in one 11.25"L x 2.5"W x 1.5"D case), an illuminated test switch ...

\* Components are ordered separately and can be field installed. \*\* In order to meet NFPA 101 section 7.9 requirements for emergency lighting systems. \*\*\* In both cases the EM Battery is wired directly to the driver box of the downlight in parallel with line voltage.

\* Components are ordered separately and can be field installed. \*\* In both cases the EM Battery is wired directly to the driver box of the downlight in parallel with line voltage.

Get up to 5 years of battery life with the high-temperature, low-maintenance Ni-MH battery. 120-277V input and 25-48V DC output; Ni-MH battery with up to 90 minutes power; Output wattage of 8W, 12W or 15W; Listed for field installation-UL924 and CSA C22.2 NO.141; Selectable emergency power 8W,12W,15W; Universal input (100-277Vac) Features: UL ...

The UFO Emergency Battery Backup is the first of its kind and a breakthrough innovation in emergency BBU technology. The auxiliary backup unit is field-installed with UFO-style, round high bays to offer illumination during emergency egress conditions.

Product Description. On the lookout for a compact, energy-saving battery backup light that is code compliant and guaranteed to meet code requirements to help you pass inspection? Everybody wants to go LED these days, which is why we developed the BBLED Series as a cost-saving and compact LED emergency light that requires very little maintenance while providing reliable ...

The UFO Emergency Battery Backup is the first of its kind and a breakthrough innovation in emergency BBU technology. The auxiliary backup unit is field-installed with UFO-style, round high bays to offer illumination during ...

This 6V 12AH sealed lead-acid battery is designed to swap out easily with your existing emergency light battery. Use your existing connectors for the simplest installation possible - in-stock and available to ship today. Toggle menu (800) 282-5600 Login or Sign Up Shopping Cart ; 0 Search. &#215;.
