

How big is the electric capacitor market?

The electric capacitor market size was valued at USD 20.6 billion in 2023 and is set to grow at 7.1% CAGR from 2024 to 2032, driven by the positive outlook toward electronic components, predominantly due to investments in consumer electronics, automotive, and other manufacturing facilities.

How big is the electric capacitor market in 2023?

Electric Capacitor Market size was valued at USD 20.6 billion in 2023 and is set to grow at 7.1% CAGR from 2024 to 2032. The electric capacitor industry in recent years has undergone various improvements and strengthened its roots across a spectrum of electronic & electrical applications.

What drives the electric capacitor market?

Electric Capacitor Market Is Driven By The Residential Sector. In 2020, the residential sector led the worldwide Electric Capacitor market in terms of end use. Increased government expenditure on infrastructure and energy has fueled the adoption of power inverters among household customers.

What is the demand for electric capacitors in consumer electronics industry?

The demand for electric capacitors across the consumer electronics industry is gaining an appreciable market penetration owing to the escalating demand from smartphones, portable computing, and automotive industries.

Why is North America electric capacitor market growing?

North America electric capacitor market has witnessed an inclination in the product demand due to the ongoing modernization of electrical transmission & distribution systems. The increasing adoption of smart grids to encourage energy conservation and integration of renewable energy will stimulate the product deployment.

What will drive the automotive capacitor market in 2029?

Over the projection period of 2020 to 2029, the market will be driven by the increasing use of film based capacitors in the automotive industry to ensure steady operations.

The market for Electric Capacitors was estimated to be worth USD 21 billion in 2023, and from 2024 to 2032, it is anticipated to grow at a CAGR of 7%, with an expected value of USD 37 billion in 2032.

The global Home Appliances and Lighting Power Film Capacitor market is projected to grow from US\$ million in 2024 to US\$ million by 2030, at a Compound Annual Growth Rate (CAGR) of % during the forecast period.

The global power capacitors market is poised for substantial growth, with the market size valued at approximately USD 15 billion in 2023 and projected to reach USD 24 billion by 2032, exhibiting a robust

compound annual growth rate (CAGR) of 5.5% during the forecast period.

ASC Capacitors is leading the charge to supply high quality capacitors to the diverse needs of a global marketplace. We are at the forefront of the build-to-order film and foil capacitor market. ASC maintains an extensive product line of traditional film, power electronics, motor run, lighting and filtering A/C products

Conductive Polymer Capacitor Market Size and Trends. The global conductive polymer capacitor market is estimated to be valued at USD 16.16 Bn in 2024 and is expected to reach USD 34.63 Bn by 2031, exhibiting a compound annual growth rate (CAGR) of 11.5% from 2024 to 2031.. Discover market dynamics shaping the industry: Request sample copy The growth of the ...

Leading Manufacturer of Film Capacitor, Ceramic Capacitor, Varistor and NTC Thermistor. Top 100 Enterprise in Electronic Component Industry Top 100 Enterprise in Electronic Component Industry Home Appliance | Songtian Electronics (STE)

Home Appliances and Lighting Power Film Capacitor Market Overview: Home appliances and lighting power film capacitor Market Size was estimated at 2.07 (USD Billion) ...

The global Home Appliances and Lighting Power Film Capacitor market is projected to grow from US\$ million in 2024 to US\$ million by 2030, at a Compound Annual Growth Rate (CAGR) of % ...

The global electric capacitor market was valued at USD 21.3 billion in 2024 and is estimated to grow at a CAGR of 7.4% from 2025 to 2034. The electric capacitor industry has seen significant advancements in recent years, establishing a ...

The global Home Appliances and Lighting Power Film Capacitor market was valued at US\$ million in 2023 and is anticipated to reach US\$ million by 2030, witnessing a CAGR of % during the ...

The Consumer Electronics sector is projected to dominate the Global Electric Capacitor Market due to the growing demand for electronic devices like smartphones, laptops, and home appliances. With the rapid advancement of ...

The report explores the global Capacitors market, including major regions such as North America, Europe, Asia-Pacific, and emerging markets. It also examines key factors driving the growth of ...

DC Film Capacitors Market Size 2024 & Analysis By Application | Home appliance, Lighting, Automobile, Photovoltaic & Wind Power, Consumer electronics,

The global electric capacitor market was valued at USD 21.3 billion in 2024 and is estimated to grow at a CAGR of 7.4% from 2025 to 2034. The electric capacitor industry has seen significant advancements in recent years, establishing a robust presence across diverse electronic and electrical applications.

Asia-Pacific, particularly China, leads the global Home Appliances and Lighting Power Film Capacitor market, with robust domestic demand, supportive policies, and a strong manufacturing base. Key Features: The report presents comprehensive understanding of the Home Appliances and Lighting Power Film Capacitor market. It provides a holistic view ...

The global power capacitors market is poised for substantial growth, with the market size valued at approximately USD 15 billion in 2023 and projected to reach USD 24 billion by 2032, ...
