Can a solar cell be made at home?

Commercial cells are mostly silicon based and require standardized processing and manufacturing. However,a basic solar cell can be created at home using easily available materials. The end product cannot be compared to commercial ones,but it can surely enhance your knowledge on how a solar cell generated energy from sunlight.

How do I install a photocell?

Two different installation techniques. The first is installing a new light fixture that comes pre-wired with a photocell. The second is adding a photocell to an existing light fixture. 1. Turn off the power to the circuit you will be working on. Place a strip of the electrical tape over the breaker that controls the circuit.
