The DSEBC2415i is an intelligent 24 volt, 15 amp switch-mode battery charger that can be programmed for different charging curves. This helps to maximise battery life. The charger is programmed using the DSE Configuration Suite Software. The charger can be Chassis or DIN Rail mounted and has three built-in LED's to indicate current charging status and fault conditions.

NFPA 110 (QWIR) COMPLIANT / UL LISTED The DSEBC2410Ei is an enclosed intelligent battery charger designed to work with multiple battery types across a wide range of applications. The advanced technology has been developed to automatically detect system settings and charging profiles including cell voltage and boost voltage to provide high-levels of charging support.
