

# Household energy storage catches fire in Abkhazia

Why did Abkhazia lose electricity?

Georgia's Russian-occupied region of Abkhazia lost all electricity supply due to the shutdown of the only power station supplying energy to the region, Russian state news agency TASS reported on Dec. 11, citing an Abkhaz energy company.

Is Abkhazia facing a 'humanitarian catastrophe'?

The leader of Abkhazia, a breakaway Georgian region backed by Russia, warned on Saturday that the republic was facing a "humanitarian catastrophe" due to a critical shortage of electricity.

Why is Abkhazia facing energy shortages?

The region has recently faced energy shortages aggravated by a growing spat with its Russian patrons. Moscow has cut almost all funding, including money crucial for the energy sector, after Abkhazia's local council voted against a controversial investment agreement with Russia.

Why did Russia occupy Abkhazia & South Ossetia?

The full-blown energy crisis came even though the Abkhaz authorities appealed to Russia for assistance on Dec. 6. Russia has occupied Abkhazia and South Ossetia after a war with Tbilisi in 2008, backing local breakaway leadership. Both regions are internationally recognized as Georgia's sovereign soil.

Abkhazia faces an imminent energy crisis, potentially leaving the region without power for up to 16 hours a day unless funds are secured to purchase electricity from Russia. Amid strained relations, Russia has ceased providing "humanitarian electricity aid" and introduced market-based tariffs.

Energy crisis in Abkhazia . The previously announced energy collapse in Abkhazia has finally arrived. Previously framed as a schedule of rolling blackouts, the new system has now been officially termed a "power-on schedule." This means that electricity will only be available across the republic for a total of 4 hours and 40 minutes during ...
