

How long is the warranty period for outdoor solar power supply

How long is a solar panel warranty?

Solar panel warranties vary depending on the manufacturer, but in the solar industry, a 10-year product warranty and a 25-year performance warranty are typically considered the minimum standard. However, some manufacturers provide a 25-year product warranty and extend the performance warranty to 30 years. How Much Does a Solar Panel Warranty Cost?

What is a performance warranty on a solar panel?

A performance warranty guarantees a maximum level of degradation- typically between .25% and .75% - per year so that in 25 years the panel will still have 80-90% of the power output it did in its first year. Performance warranties are important for sizing solar systems to maintain 100% offset for 25 years.

What does a solar installation warranty cover?

While manufacturer warranties primarily cover issues related to the solar panels themselves, such as material defects, workmanship defects, and loss of power output, the solar installation warranty extends additional protection to the entire photovoltaic system.

How do I get a solar panel warranty?

Generally, the most robust warranties are obtained by hiring installation companies certified by the solar brands they represent. Alternatively, long warranties can also be secured from solar manufacturers that provide their own installation services. What Is Not Covered by a Solar Panel Warranty?

Why do you need a warranty on solar panels?

1. Financial Security: Warranties protect your investment by covering the costs of repairs or replacements. Without a warranty, you could find yourself facing significant out-of-pocket expenses. 2. Longevity: A longer warranty period often indicates higher quality and durability of the solar panels.

Are solar panel warranties a good investment?

Understanding and comparing solar panel warranties are crucial steps in your solar investment journey. They not only provide a safety net for your investment but also serve as an indicator of the quality and reliability of the product.
