

How to connect the automatic power supply battery cabinet

How do I connect a ups to a battery cabinet?

Connect to the communication port on the UPS and Communication Port 1 on the first battery cabinet. Connect the first string of additional battery cabinet systems. Connect a battery-to-battery cable to Connector B on the first cabinet in the previous string, and to Connector A on first cabinet in the additional string.

How do I connect a 2U Battery Cabinet?

Connect a single battery cabinet system. Refer to the illustration, "Cabling 2U Cabinets in Parallel," above, and connect the "Port-B" end of the battery cables to the battery ports on the UPS. Connect the "Port-A" end of each cable to Connector A on each battery cabinet in the battery string. Connect the communication cable.

How do I connect a battery cabinet?

Connect the first string of additional battery cabinet systems. Connect a battery cable to Connector B on the first cabinet in the previous string, and to Connector A on the first cabinet in the additional string. Connect the second string in additional battery cabinet systems.

How do I connect an auxiliary battery to a ups?

Use top or bottom entry on the battery cabinet. 10. Connect the Aux battery wiring to terminal strip TB1 in the battery cabinet (see Figure 4-11). Connect the wiring to terminals in the battery disconnect. The battery disconnect Aux battery wiring must be in series with the battery cabinet and the UPS.

How does a battery cabinet work?

The battery cabinet uses convection air coolingto regulate internal component temperature. Air inlets are in the front of the cabinet and outlets are in the top. Allow clearance in front of and above each cabinet for proper air circulation. The clearances required around the battery cabinet are shown in Table 3-2.

How do you attach a battery cabinet to a field kit?

Remove the left-hand and right-hand screws from the adjacent top door hinges of the battery cabinets. Locate the small flat bracket from the field kit. Align the holes in the small flat bracket over the hinge screw holes. Replace the screws in the hinges, securing the bracket to the cabinets (see Figure 4-5).
