

# Kunming China Insurance Solar System Installation

Do you offer insurance & certifying your solar panels?

We are happy to think along with you and offer customization when it comes to the insurance of your solar PV system and the quality assurance of your solar modules and/or installation work of your solar power installation? We also offer excellent options for certifying your solar panels.

Should you insure and secure your business solar panels?

Choose security. Can we remind you to insure and secure your business solar panels? Are you an entrepreneur or investor owning a solar PV system? In addition to the fact that solar panels on your business premises increase value and reduce electrical bills, it also entails risks.

How to protect your solar system?

The best protection for end-users is to closely monitor their solar system installation. By evaluating the solar system, any product defects or weak PV performance can be spotted in an early stage of the product lifetime, and can be replaced by the solar system installers, with the help of manufacturer guarantees.

Are solar panel insurance policies standardized?

Despite many years of commercial solar applications and an increasingly larger and international solar market, solar panel insurance products are not yet standardized or normalized in the insurance industry. A number of insurers offer solar panel insurance policies, however the premium can be still prohibitively high.

What insurance should a solar system owner buy?

Property Risk Insurance The solar system owner usually purchases property insurance to protect against risks not covered by the warranty or to extend the coverage period. The property risk insurance often includes theft and catastrophic risks. 3. Environmental Risk Insurance

Do you need business interruption insurance for a solar project?

Business interruption insurance is often required to protect the cash flow of the solar project. Do you really need PV insurance? Rely on manufacturer warranty? Realistic or not, often there are concerns about the warranties offered by solar panel manufacturers.
