[...] Buy Lead Acid Batteries at Screwfix.com. High powered battery for larger electronic products. A rechargeable, cost effective option. Free next day delivery available.

What is a lead acid battery?

**Lead Acid Battery Definition:** A lead acid battery is defined as a rechargeable battery that uses lead and sulfuric acid to store and release electrical energy. **Container Construction:** The container is made from acid-resistant materials and includes features to support and separate the plates.

What are the parts of a lead acid battery?

There are mainly two parts in a lead acid battery. The container and plates. As this battery container mainly contains sulfuric acid hence the materials used for making a lead acid battery container must be resistant to sulfuric acid. The material container should also be free from those impurities which are detrious to the sulfuric acid.
