

List of central enterprises in Argentina's battery industry

How many companies are involved in a lithium project in Argentina?

These are some of the findings from a report prepared by the consulting firm Aleph Energy, led by Daniel Dreizzen, which analyzes the global lithium market while delving into Argentina in greater detail. These are the 41 companies of various characteristics that participate in the country's 64 projects.

Which Argentine sites produce lithium hydroxide and lithium carbonate?

Two Argentine sites, Salar de Hombre de Muerto and Salar Cauchari - Olaroz, are already producing lithium hydroxide and lithium carbonate, and are among the top three with the highest lithium concentration in the region, behind Salar de Atacama in Chile. They are also among the top three with the lowest impurities.

Is Arcadium lithium still produced in Argentina?

Arcadium Lithium, the firm that resulted from the merger between Livent and Allkem, two of the three companies that were already producing lithium in Argentina, accounts for 13% of global production. Output has quadrupled in the last ten years, but is still attributable to only a few countries and projects. Another Argentine Unicorn on the Horizon?

How much lithium will Argentina produce in 2040?

If Argentina manages to bring all of projects to production, the country would produce up to 1.5 million metric tons of lithium carbonate equivalent per year, exporting around US\$30 billion. This scenario could be achieved by 2040, according to Dreizzen's estimates.

Why is Argentina a great country?

Benefiting from rich natural resources, a highly literate population, a diversified industrial base, and an export-oriented agricultural sector, the economy of Argentina is Latin America's third-largest, and the second largest in South America.

Where is lithium found in Argentina?

In the Argentine case, these resources are concentrated in three northern provinces: Catamarca, Salta, and Jujuy, which stand out due to the low impurity concentration found in their lithium.

EVE's primary lithium battery is world-leading, with sales and export volume ranking No. 1 in China for 7 consecutive years and ER battery was selected as China's Single-Champion product in manufacturing industry in 2022; In terms of cylindrical batteries, the shipment ranked among the top four globally and ranked first among domestic brands; From January to June 2023, the ...

Product types: solar electric power systems, photovoltaic systems, photovoltaic modules, wind energy systems (small), wind turbines (small), renewable energy system batteries. Service types: design, installation; Address:
