Most importantly, the lithium-ion battery took between three and five hours to charge - and with an 800mAh capacity, it didn't last as long either. Still, it's lightweight and versatile, so for this price, it's really hard to grumble. Key specs - Weight: 1kg; Batteries: 1 x 18V li-ion, 800mAh; Maximum speed: 650rpm; Torque settings: 16; Maximum torque: Not stated; Maximum drilling ...

Efficient combi drill with a maximum hard torque output of 50Nm, ideal for everyday screwdriving and drilling. Fitted with a Makita Brushless motor, which increases the run time of the machine per battery charge cycle, reducing the need to charge the battery and extending the life of the battery itself. Brushless motor also reduces downtime ...
