

# Market share of my country s lithium battery industry

What is the global lithium-ion battery market size?

The global lithium-ion battery market size was estimated at USD 54.4 billion in 2023 and is projected to register a compound annual growth rate (CAGR) of 20.3% from 2024 to 2030. Automotive sector is expected to witness significant growth owing to the low cost of lithium-ion batteries.

How big is the lithium-ion battery market in 2023?

The global lithium-ion battery market was valued at USD 64.84 billion in 2023 and is projected to grow from USD 79.44 billion in 2024 to USD 446.85 billion by 2032, exhibiting a CAGR of 23.33% during the forecast period. Asia-Pacific dominated the lithium-ion battery market with a market share of 48.45% in 2023.

Which countries have the most lithium-ion batteries in the world?

Asia-Pacific is the most significant global lithium-ion battery market shareholder and is expected to grow at a CAGR of 17.2% during the forecast period. China has established a goal for the Electric Vehicle Initiative's Clean Energy Ministerial that calls for electric vehicles to make up 30% of all vehicles by 2030.

Which countries dominate the lithium-ion battery market in Asia Pacific?

China accounted for the largest share of the lithium-ion battery market in Asia Pacific as it is one of the major lithium-ion battery producers in the region. Increasing R&D for the development of new battery technologies by various countries in Asia Pacific is another factor driving the growth of the lithium-ion battery industry in the region.

Which country has the largest Li-ion battery market in 2023?

Asia Pacific held the largest market share of over 47.0% in 2023. The market in Europe is expected to witness steady growth over the forecast period owing to the increasing use of li-ion batteries in various sectors including medical, aerospace & defense, automotive, energy storage, and data communication & telecom.

How will the lithium-ion battery market grow?

The growth of the lithium-ion battery market is anticipated to be constrained by the rising demand for replacements, such as lead acid batteries, lithium-air flow batteries, solid-state batteries, and sodium nickel chloride batteries, in electric vehicles, energy storage, and consumer electronics.

The global lithium-ion battery market was calculated at USD 74.7 billion in 2024 and is anticipated to witness a CAGR of 15.8% between 2025 and 2034. The market is experiencing significant growth due to the rising demand for electric vehicles (EVs). Automakers are adopting lithium-ion technology for its high energy density, lightweight nature ...

The global lithium-ion battery market was valued at USD 64.84 billion in 2023 and is projected to grow from

# Market share of my country s lithium battery industry

USD 79.44 billion in 2024 to USD 446.85 billion by 2032, exhibiting a CAGR of 23.33% during the forecast ...

According to Custom Market Insights (CMI), The Global Lithium-Ion Battery Market size was estimated at USD 42.5 billion in 2021 and is expected to reach USD 48.80 billion in 2022 and is anticipated to reach around USD 184.15 billion by 2030, growing at a CAGR of roughly 18.5% between 2022 and 2030.

According to Custom Market Insights (CMI), The Global Lithium-Ion Battery Market size was estimated at USD 42.5 billion in 2021 and is expected to reach USD 48.80 billion in 2022 and is anticipated to reach around USD 184.15 ...

Industrial batteries market is projected to reach \$30.8 billion by 2030, growing at a CAGR of 13.2%. The Go Green revolution is primarily driving the growth of the industrial battery market globally. About Us; Report Store; Resource Center . AMR in News Blogs Press Releases. Request for Consulting; Our Clients; A\* Avenue (United States): +1-503-894-6022 (UK): +44 ...

The global lithium-ion battery market size was valued at USD 56.43 billion in 2023. It is expected to reach USD 240.90 billion in 2032, growing at a CAGR of 17.5% over ...

The global lithium-ion battery market was valued at USD 64.84 billion in 2023 and is projected to grow from USD 79.44 billion in 2024 to USD 446.85 billion by 2032, exhibiting a CAGR of 23.33% during the forecast period. Asia-Pacific dominated the lithium-ion battery market with a market share of 48.45% in 2023.

It is projected that between 2022 and 2030, the global demand for lithium-ion batteries will increase almost seven-fold, reaching 4.7 terawatt-hours in 2030. Much of this growth can be...

The global Lithium-ion Battery Market Size in terms of revenue was estimated to be worth \$56.8 billion in 2023 and is poised to reach \$187.1 billion by 2032, growing at a CAGR of 14.2% during the forecast period.

Analyze the market segmentation of the Lithium ion Battery industry. Gain insights into market share distribution with a detailed breakdown of key segments and their growth.

The segments of the lithium-ion battery supply chain with the largest revenue opportunities by 2030 were active materials, or the creation of electrochemically active materials for battery...

Rising EV battery demand is the greatest contributor to increasing demand for critical metals like lithium. Battery demand for lithium stood at around 140 kt in 2023, 85% of total lithium demand and up more than 30% compared to 2022; for cobalt, demand for batteries was up 15% at 150 kt, 70% of the total. To a lesser extent, battery demand growth contributes to increasing total ...

## Market share of my country s lithium battery industry

The global lithium-ion battery market was worth USD 68.40 billion in 2023 to reach a valuation of USD 150.14 billion by 2029 with a CAGR of 14% Reports Services

The Lithium-ion Battery Market is expected to reach USD 64.75 billion in 2024 and grow at a CAGR of 14.46% to reach USD 127.23 billion by 2029. Samsung SDI, Panasonic Corporation, BYD Company, Contemporary Amperex ...

The global lithium market size was valued at USD 22.19 billion in 2023 and is projected to grow from USD 26.88 billion in 2024 to USD 134.02 billion by 2032 at a CAGR of 22.1% during the 2024-2032 forecast period. ...

The global lithium-ion battery market size was estimated at USD 54.4 billion in 2023 and is projected to register a CAGR of 20.3% from 2024 to 2030
