IP55 stainless enclosure with corrosion resistant painting. Built-in battery management system, HVAC, and automatic fire suppression system. Certification: cell level - UN38.3, IEC 62619, UL1973; module level - UN38.3, IEC 62619, UL1973. Delta's Li-battery storage system features high-voltage for enhancing the efficiency of energy management.

Based on the field of new energy components, Nippon Paint integrates the technological advantages of resin system powder coatings to create powder coating solutions for energy storage customers. Nippon Paint powder coating is a zero-VOC solvent-free coating. It has good adhesion, insulation and voltage resistance, corrosion resistance and aging ...

This battery cell assembly line is modular-based and compact in structure. Due to its intelligent management, it is totally traceable. Combined with MES management system, the entire line is always under monitoring to keep all constituent devices stable. Key components are sourced from top brands, enhancing the line's stability, compatibility ...

Delta's Li-battery storage system features high-voltage output for enhancing the efficiency of energy management. With its scalable and anti-corrosion capabilities, Delta's battery system can meet project requirements of varying scale and is suitable for various environmental conditions, making it an ideal solution for grid ancillary services and C& I applications while ensuring ...
