

# New Energy Battery Supply Brand Ranking

Who is the largest battery company in the world?

Contemporary Amperex Technology Co. Limited (CATL) has swiftly risen in less than a decade to claim the title of the largest global battery group. The Chinese company now has a 34% share of the market and supplies batteries to a range of made-in-China vehicles, including the Tesla Model Y, SAIC's MG4/Mulan, and Li Auto models.

Where are the world's largest EV battery manufacturers in 2023?

Asia dominates this ranking of the world's largest EV battery manufacturers in 2023. See which battery makers feature in the top 10.

Who makes the best battery?

This was driven by demand from its own models and growth in third-party deals, including providing batteries for the made-in-Germany Tesla Model Y, Toyota bZ3, Changan UNI-V, Venucia V-Online, as well as several Haval and FAW models. The top three battery makers (CATL, BYD, LG) collectively account for two-thirds (66%) of total battery deployment.

What is the market value of power battery companies?

The market value reflects the recognition and expectation of the capital market on the value of the mentioned power battery companies. The peak value of CATL in the first half of the year has reached 24 times that of LG. The market value of GOTION High-tech and EVE also exceeds LG.

Who makes the most EV battery?

The top three battery makers (CATL, BYD, LG) collectively account for two-thirds (66%) of total battery deployment. Once a leader in the EV battery business, Panasonic now holds the fourth position with an 8% market share, down from 9% last year.

What are the top 5 energy companies in the world?

In the utility-scale sector, the top five companies are CATL, EVE Energy, Hithium, REPT, and BYD. The top two predominated, with CATL shipping more than 40 GWh and EVE Energy shipping nearly 15 GWh. The rest of the three shipped less than 10 GWh, with slight difference between each other.

Global risk management organisation DNV identified the top ten battery cell manufacturers by volume in its 2022 Battery Scorecard report. Here we take a look at the top ...

CATL's battery installation increased by 31.9% year-on-year to 60.1 GWh, with its market share growing by nearly 3 percentage points to 37.9%, ranking first globally. With this, CATL has maintained its position as the world's largest battery supplier for electric vehicles for seven consecutive years.

# New Energy Battery Supply Brand Ranking

Our primary focus lies in cutting-edge power battery technology for new energy vehicles, energy storage applications, power transmission, and distribution equipment. As a technology-driven company, Gotion High-Tech is at the forefront of power battery research, development, and innovation.

For utility-scale energy storage, CATL, BYD, EVE Energy, Hithium, and REPT BATTERO shipped the most in 2023. CATL shipped more than 65 GWh and the rest less than ...

The world shipped 43.9 GWh of energy storage batteries in the first quarter of 2023. Shipping 14 GWh, CATL topped the spot as the leading battery manufacturer but saw a ...

Global risk management organisation DNV identified the top ten battery cell manufacturers by volume in its 2022 Battery Scorecard report. Here we take a look at the top ten by projected cell production in 2022 and highlight the latest developments impacting on each manufacturer's business.

Currently, LG New Energy supplies power battery products to leading global automotive brands such as Volkswagen, GM, Daimler, Ford, Hyundai, Kia, Audi, Porsche, Renault and Tesla. In the first half of 2021, LG ...

According to a recent report from SNE Research, the top two battery manufacturers own roughly 50% of all market share, while the top ten own 91% of the market. "From January to September in 2022, the amount of ...

The world shipped 196.7 GWh of energy-storage cells in 2023, with utility-scale and C& I energy storage projects accounting for 168.5 GWh and 28.1 GWh, respectively, according to the Global Lithium-Ion Battery Supply Chain Database of InfoLink. The energy storage market underperformed expectations in Q4, resulting in a weak peak season with only ...

According to InfoLink's global lithium-ion battery supply chain database, energy storage cell shipment reached 114.5 GWh in the first half of 2024, of which 101.9 GWh going to utility-scale (including C& I) sector and 12.6 GWh going ...

In 2023, BYD surpassed LG Energy Solution to claim second place. This was driven by demand from its own models and growth in third-party deals, including providing batteries for the made-in-Germany Tesla Model Y, ...

Li-ion power battery manufacturer in the supply chain of top international automobile manufacturers. Founded in 2011, CATL is one of the first internationally competitive power battery manufacturers in China, focus on new energy vehicle power battery system, Energy Storage System R & D, production and sales, committed to the global new energy applications ...

The company specializes in the research, development, production, and management of new lithium ion batteries and their materials, and owns the core technology intellectual property rights, with the main products being lithium iron phosphate materials, battery cells, power battery packs, BMS systems and energy storage battery packs.

According to InfoLink's global lithium-ion battery supply chain database, energy storage cell shipment reached 114.5 GWh in the first half of 2024, of which 101.9 GWh going ...

According to a recent report from SNE Research, the top two battery manufacturers own roughly 50% of all market share, while the top ten own 91% of the market. "From January to September in 2022, the amount of energy held by batteries for electric vehicles registered worldwide was 341.3GWh, a 75.2% year over year increase," SNE Research ...

The company collaborates closely with brands that manufacture smartphones, tablets, notebooks, drones, and other OEMs. In 2023, ATL partnered with AM Batteries and Group14 Technologies. The partnership with AM Batteries focuses on developing solvent-free electrode manufacturing technology, while the collaboration with Group14 Technologies aims ...
