## New energy battery cabinet fire extinguishing device

The utility model discloses a kind of new energy battery fire extinguishing system, Including casing and cabinet, The inner chamber bottom surface of the casing is provided with container, Pressure display unit is provided with the middle part of the escape pipe of the container, The outlet tube end of the container is provided with container value, The input of the container value is ...

We can use a 12-gram box-type aerosol fire extinguisher for the energy storage battery box because the size of this model of the product is small enough for engineering companies or technicians.. As for the cabin level protection of the energy storage system, since the cylindrical MINISOL mounting bracket takes up a lot of space, we suggest installing a rectangular cabinet ...

This product can be paired with other aerosol models for energy storage cabinets, energy storage containers, battery vehicles, and charging facilities in the new energy field. Among them, the ordinary 12g lithium battery fire extinguisher has the same fire extinguishing ability as this Ultra-Thin Lifepo4 Fire Extinguishing System.

The renewable lithium ion fire extinguisher is a small fire extinguishing device that has become popular with lithium batteries, energy storage and photovoltaic products. This product has two main features: It is very small in size and can be installed in limited and narrow spaces.

40g new energy fire buster is an aerosol fire extinguisher designed specifically for larger-sized energy storage packs. This product is very thin, only 15mm thick, and very adaptable to the battery pack. The main medium for extinguishing fires is aerosol, which is an extinguishing agent that is solid at rest and gaseous when sprayed.

## 

Recommend new design and advanced technology of aerosol fire extinguishing system in lithium battery vehicles, it is apply in new energy auto vehicles and install inside the lithium battery. Do all for safety, for a safe world! Tel:+86-0790-6000119 | E-mail: info@aerosolfire . HOME; ABOUT US; PRODUCT. Mini Automatic Aerosol Fire Extinguishers; Floor standing aerosol fire ...

Our company has designed a variety of protection schemes for the fire protection of new energy buses, and can also use the built-in aerosol automatic fire extinguishing device in the battery box and battery compartment for fire protection.

This micro-sized renewable energy fire protection device AW-QRR0.005G/S/SA is not only suitable for energy storage battery boxes but also suitable for the following fields: Electric vehicles, including electric
