New energy battery is not displayed

How do I Check my battery status on Windows 10?

To check the status of your battery,select the battery icon in the taskbar. To add the battery icon to the taskbar:
- Select Start > Settings > Personalization > Taskbar,and then scroll down to the notification area.
Choose Select which icons appear on the taskbar,and then turn on the Power toggle.

Why is my battery icon not showing on Windows 10?

However, there may be times when the battery icon is not visible in the Taskbar, which can be annoying if you need to keep track of your battery life. There are several reasons why the battery icon may not be displayed, such as a disabled battery icon setting, outdated or corrupted battery drivers, Windows update issues, or power settings issues.

How to check if a laptop battery is bad?

Settings > Taskbar > Turn system icons on or off. Then click the " Turn system icons on or off " link under the " Notification area " section. Look for the " Power " option and turn it on. With this method, the Taskbar should immediately show the battery icon if your computer's battery is fine and can hold charge. 2. Restart your device.

How do I find the battery icon on Windows 10?

Choose Select which icons appear on the taskbar,and then turn on the Power toggle. (Note: The Power toggle is not visible on a system such as a desktop PC that doesn't use battery power.) If you still don't see the battery icon,select Show hidden icons on the taskbar,and then select the battery icon.

Why is my battery icon disappearing?

The battery icon could disappear due to a minor system glitch or an outdated Windows OS,much like a bug in a video game that needs a patch or an obsolete version of a programming tool. It can also happen if the 'Power' option under system icons is accidentally toggled off. How do I enable the Power option to show the battery icon on my taskbar?

How do I Fix my laptop battery not working on Windows 10?

Press the Power button to turn on your PC. Check if the battery icon appears in the Taskbar when logging into your PC. 3. Force your device to shut down and restart. Press and hold the power button for 20 seconds. Another approach to fix the issue is to force shut down your laptop or tablet and restart using the power button.
