

New energy battery warranty expires and replacement

How long does an EV battery warranty last?

These warranties can span from as little as three years to as much as seven years, occasionally incorporating a mileage restriction or remaining unlimited in scope. The specifics of an EV battery warranty can vary between different manufacturers and models.

What is a battery warranty for an electric car?

The battery warranty covers only the battery and is usually offered for a longer period. The basic vehicle warranty for an electric car is like that of a traditional gasoline-powered vehicle. It covers the repair or replacement of any parts that are defective or fail to perform as intended.

How long does a battery warranty last?

The battery warranty typically lasts for 8 years or 160,000 kilometres, whichever comes first. It's important to note that the battery warranty does not cover normal wear and tear. Instead, it covers defects and failures not resulting from regular use. Additionally, some manufacturers may offer a battery capacity warranty.

How long does an electric car warranty last?

Many EV manufacturers also offer a powertrain warranty that covers the electric motor, transmission, and other components for a longer period. Typically, 5 years or 100,000 kilometres. The battery is one of the most expensive components of an electric vehicle, so it's important to understand the battery warranty.

Do you need a battery capacity warranty?

Additionally, some manufacturers may offer a battery capacity warranty. It will guarantee that the battery will maintain a certain level of performance over the warranty period. Adding an extended warranty when the basic vehicle warranty expires is a good option.

Can I get a new battery under warranty?

In my opinion if you have an acceptable level of battery degradation but you are not happy with that, you have the option of battery smooching, but you are not entitled to have a new battery under warranty. But if you have a non-acceptable level of battery degradation you should be entitled to have a new battery under warranty.

The warranty for the battery is 8 years from Porsche. Nobody is out of warranty as of 2024. Has anyone established what happens in 2028 and beyond? 1 Can you extend it with Porsche? 2 How much cover is there in the ...

The coverage expires once either the designated period or distance has been exceeded (whichever comes first). These warranties can span from as little as three years to as much as seven years, occasionally incorporating a mileage restriction or remaining unlimited in scope. EV Battery Pack Warranty

New energy battery warranty expires and replacement

Most EV manufacturers offer a separate battery warranty that covers the battery for longer than the vehicle warranty. The battery warranty typically lasts for 8 years or 160,000 kilometres, ...

For those who got new EVs in the past 5 years, do you plan to keep the vehicle once the warranty expires? It's seems common for issues to be dismissed in new cars because of the warranty. ...

If your battery fails after the warranty period expires, you will likely need to purchase a new one without any financial assistance from the manufacturer. It's wise to budget for potential replacements as batteries age over time.

For example, my Everstart Maxx battery is 42 months old (3 and a half years old), is no longer eligible for a free replacement, is tested dead but I need a new battery. According to my warranty, I have 18 months left or 30 ...

Most EV manufacturers offer a separate battery warranty that covers the battery for longer than the vehicle warranty. The battery warranty typically lasts for 8 years or 160,000 kilometres, whichever comes first. It's important to note that the battery warranty does ...

My concern now is the battery warranty which will expire in 2026. I have read in the forum that someone was quoted \$22k for battery replacement. I noticed that the battery range has dropped from charging at 80% at 226 miles (when it was new) to now charging at 80% at 185 miles. Should I trade in the car before the battery warranty runs out? Or ...

New energy battery warranty expires and replacement

Depending on which EV brand you shop with, your battery warranty and coverage will vary. As we said, this is NOT the same for everyone. For example, if you shop through Hyundai, you see an ...

(Yicai) Nov. 5 -- China's new energy vehicle owners are being confronted with astronomical costs to replace batteries and other auto parts as warranty periods start to expire, with power packs costing more than the value of the car itself in some cases.

In general, the battery warranty is transferable if the new owner has the receipt or proof of purchase from the original buyer. This means that if you sell your vehicle and include the receipt or proof of purchase, the new owner will be able to take advantage of the remaining warranty. It's important to note that the warranty is specific to the battery and does not extend ...
