It followed a first round in which three generation projects and one BESS project were selected. That BESS project was an 8-hour duration lithium-ion (Li-ion) project submitted by RWE, with 50MW output to 400MWh ...

One is the Risk Mitigation IPP Procurement Program (RMIPPPP) for solar and storage, for which Saudi-based IPP ACWA Power recently won a project with a 1,200MWh BESS. Scatec started construction on one of its winning projects in December while EDF is also building projects for RMIPPPP.

While lithium-ion was picked first -- and now also second -- the CEO had said there was a third shortlisted project which was based on an emerging technology. While Balachandran could not disclose what it was, he did refer to bids being received for projects using everything from flow batteries to hydrogen fuel cells, gravity storage, pumped hydro, various ...
