

How much BMZ is investing in North Macedonia?

It is not known how much the company is investing in the North Macedonia site or what kind of batteries are produced there. In July, BMZ Group signed a strategic cooperation agreement with CALB (China Lithium Battery Technology) for the development and production of batteries for electric commercial vehicles.

Why did BMZ choose North Macedonia?

The battery manufacturer says it decided on a location in North Macedonia for various reasons - on the one hand, North Macedonia is known for its "investor-friendly policies" and the company sees the "enormous growth opportunities of BMZ". On the other hand, the company suffers from a shortage of skilled workers in Germany as well as in Poland.

Will BMZ open a production site in Macedonia?

The German battery manufacturer BMZ Group wants to open a production site in northern Macedonia. The corresponding agreement with the government there has already been signed. More than 60 production lines are to be built there by 2028.

Who makes BMZ batteries?

BMZ Group, headquartered in Karlstein am Main, develops and manufactures lithium-ion system solutions in the areas of home and industrial storage/green energy as well as e-mobility and drive systems, among others. As reported, BMZ sells its battery cells under the TerraE label.

How many jobs will BMZ create in Macedonia?

BMZ wants to create up to 600 new jobs in northern Macedonia. The manufacturer emphasises that no jobs will be cut at the plants in Germany and Poland. Despite the relocation of the production lines, "further growth" is expected there as well. The new location will be managed by Jelica Ivanovska.

Does BMZ sell TerraE batteries?

As reported, BMZ sells its battery cells under the TerraE label. The German battery manufacturer BMZ Group wants to open a production site in northern Macedonia.

Moreover, lithium-ion batteries are simply more efficient than lead-acid batteries, which means that more solar power can be stored and used in lithium-ion batteries. Lead-acid batteries are only 80%-85% efficient, depending on the model and condition. This means that if there are 1,000 watts of solar coming into the batteries, there are only 800--850 watts available after the ...

With over 13 years of experience, MANLY Battery produces a wide range of wholesale battery products, including LiFePO4 and lithium-ion batteries, designed for numerous applications like solar energy storage, electric vehicles, and industrial use. Their production capacity, which includes assembling over 3,000 batteries per day, ensures a steady supply of high-quality ...

North Macedonia, The Former Yugoslav Republic of Macedonia, and its government are serious about shifting to a clean and renewable energy source to meet its energy demand. In fact, they have doubled their effort to transition to solar and renewables by boosting its installed energy production capacity. Their current goal is to generate 50% of ...

BMZ Group is a global player in the development and production of cross-industry lithium-ion system solutions. It offers the complete value chain from the cell and the battery to second life and disposal. In addition to supplying markets such as medical, power- & gardentools as well as industrial applications, the BMZ Group sees itself ...
