Battery cell production workshop of New Energy Corporation is being seen in Huai'an, Jiangsu province, China, on June 5, 2024. The Bunsen cell is a zinc-carbon primary cell (colloquially called a "battery") composed of a zinc anode in dilute sulfuric acid separated by a porous pot from a carbon cathode in nitric or chromic acid.

ARPA-E hosted a workshop on technological challenges and opportunities in achieving a domestic and circular battery supply chain on June 12-13, 2023 in Chicago, IL. This ARPA-E workshop sought to enhance the pace of technological innovation necessary to achieve a circular and domestic battery supply chain for the transportation sector. It aimed to explore ...

cerenergy#174; - the high-temperature battery for stationary energy storage; Planar Na/NiCl<sub>2</sub> battery cells - powerful stationary energy storage; Sustainable gas diffusion electrode for alkaline energy converters; Sodium Battery Materials and Prototype Manufacturing; Ceramic Electrolytes and Electrodes; Environmental and Process Engineering
