

Refurbished energy storage charging piles for sale

Thousands of Piles, Nationwide Coverage · Over 600 self-operated charging stations, over 3,000 DC supercharging piles, and approximately 80,000 AC home charging piles · Service network covering over 100 cities, providing stable and ...

The charging station combines photovoltaic power generation, V2G charging pile and centralized energy storage. The 28 charging bays of the charging station are all equipped with DC terminals, which basically have charging and discharging functions for EVs. The system is equipped with a total energy storage capacity of 1000 kWh.
