

Rooftop solar energy provided by real estate agency

What is Rooftop Solar?

Rooftop Solar is a NABCEP (solar) Certified, licensed, bonded, and insured company. At Rooftop Solar, solar isn't just a job, it's a passion. Your system will be installed by the best installers in the industry and backed with an exclusive 30-year warranty. Rooftop Solar is the one creating clean renewable energy for you every moment the sun hits your panels.

Are rooftop solar panels a good investment?

ESG (being the ordinary name for "environmental, social, and governance" regimes) refers to the three key factors that investors consider when evaluating the sustainability and ethical impact of an investment. Installing rooftop solar panels on commercial premises can provide numerous ESG benefits to landlords, including:

Do rooftop solar installations add value to commercial premises?

As this article has set out, rooftop solar installations are a relatively accessible and proven way to add value to commercial premises, and to assist in regeneration or future-proofing them, whilst assisting a landlord's ESG credentials and making their portfolio generally more attractive to mutually aligned tenants.

Can a commercial landlord pay for rooftop solar?

This means that commercial landlords can sell the excess energy generated by their rooftop solar installations to energy suppliers and receive payment for it. This scheme provides loans to commercial landlords who want to install energy-efficient measures, including rooftop solar installations.

Who buys rooftop solar in California?

A new study by Berkeley Labs showed that middle-income and working-class Californians were by far the largest buyers of rooftop residential solar. In California, there has been a multi-year war waged over the fate of a mechanism called net energy metering (NEM).

Are rooftop solar panels a marketing tool?

Rooftop solar panels can act as a marketing tool, demonstrating a business's commitment to sustainability and helping to attract customers or clients who value environmentally friendly practices. What savings can be made using rooftop solar?
