AmpIn Energy Transition has invested US\$371.7 million to build renewable projects of more than 600MW and a solar cell and module assembly plant in India.

We are excited to announce that we will shortly begin distributing electric vehicles in St. Lucia! Watch this space, or contact us for more details... The benefits of renewables go beyond reducing carbon emissions; here are just three reasons why renewables are rapidly making their way up the energy agenda.

Saint Lucia has launched a project to construct a three megawatt (MW) solar farm in the south of the island, as the island's first ever utility-scale renewable energy project. Representatives from Saint Lucia Electricity Services Limited (LUCELEC) and the US-based solar energy firm GRUPOTEC, participated in the ground breaking ceremony on ...

A Request for Proposals (RfP) for the solar farm's engineering, procurement and construction (EPC) has been launched, as announced at the start of the week. The power company aims to have at least 1 MW of photovoltaic (PV) ...

The Eastern Caribbean Solar Challenge is a special project of the Caribbean NDC Finance Initiative (NDCFI). The NDCFI was launched in 2017 by the OECS and the Government of Saint Lucia and serves all OECS Member States. It was established with the political support of the United Nations Framework Convention on Climate Change (UNFCCC), ...

On the 11th April 2018, the St. Lucia Electricity Services Limited (LUCELEC) - the sole electric utility company on the island - completed the commissioning of the island's first utility-scale solar PV plant. The plant is rated at 3 megawatt (MW) and is located in La Tourney, Vieux Fort, just north of the Hewanorra International...

A Request for Proposals (RfP) for the solar farm's engineering, procurement ...

Saint Lucia Electricity Services Limited (LUCELEC), has released a request for proposals (RFP) for competitive firms to submit bids to develop an on-island three megawatt solar photo-voltaic (PV) project. The three megawatt solar plant will be located north of the Hewanorra International Airport at La Tourney, Vieux Fort, and represents the ...

EcoCarib was brought into the marketplace to help solve the Caribbean's problem of high energy costs and aid the region's transition to a more sustainable future.

The Government of Saint Lucia is partnering with Solar Head of State to install solar panels on the public residence of the Governor-General, Government House, in September 2016. This is part of... The \$20M solar farm is historic for Saint Lucia as it will be the first utility-scale renewable energy project on the island. It will be funded, owned and operated by LUCELEC. When completed in April 2018, it will have about 15 thousand panels and will generate 7 million kWhs (or units) of electricity per year. That's enough to ...

The Caribbean Island of St. Lucia is known for its beautiful beaches, lush rainforests, and colorful coral reefs. But for some of the almost 200,000 people that live on the island, another ...

LUCELEC is collaborating with solar power firm GRUPOTEC to construct a 3 megawatt solar photovoltaic (PV) farm in the south of the island. When it opens in spring 2018, the EC\$20m farm is expected to generate enough electricity to power nearly 3,500 homes. LUCELEC is right on trend.
