

# San Diego energy storage electricity price policy adjustment plan

How would San Diego Gas & Electric's 'fixed-rate' electricity plans work?

NBC7's Sergio Flores has a breakdown of how the proposed rates would work. The California Public Utilities Commission is holding public forums for San Diego Gas & Electric customers to get input on the proposal of 'fixed-rate' electricity plans. The idea is that you would pay a flat fee based on your income.

Can San Diegans lower their electricity bills?

Fortunately, between San Diego Gas and Electric's (SDG&E) many electric rate plans and a robust residential solar and battery market, San Diegans have several options to lower their electricity bills. In this article, we'll explore various SDG&E tariffs (aka rate plans) and how to choose the right option for your electricity needs.

What is the average utility rate in San Diego?

According to the US Bureau of Labor Statistics, the average utility rate in the San Diego metro area was 47.7 cents per kWh in November 2023, so we'll use that figure and assume very conservative rate increases of 3% per year.

Will SDG&E approve energy storage contracts?

The request of SDG&E to approve the utility-owned energy storage contracts as requested in Advice Letter 3913-E is approved. The total cost (capital, operations, and construction) of \$399.2 million is reasonable given recent increase in cost for lithium-ion battery energy storage systems.

How does San Diego Gas & Electric (SDG&E) work?

The San Diego Gas & Electric (SDG&E) logo. How does it work? Your bill is basically made up of two parts - the amount of energy you use, and fees. Right now, the amount you pay for those fees is based on how much energy you use each month. Under the new proposal, that would change, and you would pay a flat rate for fees, based on your income.

What is the purpose of SDG&E's Electric and gas tariff book?

The purpose of SDG&E's Electric and Gas Tariff Book is to document tariff changes filed with and approved by the CPUC. Please direct any questions to one of the following help lines: To ask rate questions about your electric or gas service or questions regarding the simplified rate schedules above please call (800) 411-7343.

Per the framework laid out in a new state law (AB 205) passed in 2022, SDG& E has proposed adopting a fixed price - based on household income - to help fund electric delivery infrastructure and customer service. The fixed price would not change month-to-month regardless of how much electricity a customer uses.

Right now, the amount you pay for those fees is based on how much energy you use each month. Under the new proposal, that would change, and you would pay a flat rate for fees, based on your income....
