Will Nio and shell build 100 battery swap stations in 2025?

NIO and Shell plan to jointly build 100 battery swap stations in China by 2025 and to operate pilot stations in Europe starting in 2022. NIO today saw the first results of its partnership with Shell, the world's largest gasoline retailer, after the two companies agreed to work together in November last year.

Where is Nio-shell battery swap & supercharging station located?

On August 1, the first NIO-Shell battery swap and supercharging station opened in Xiamen, Fujian province in Southeast China, according to a press release. The station is NIO's 1,048th battery swap station and 1,777th charging station in China, with two 180-kW supercharging piles.

What is Nio's new battery swap station?

The station is NIO's 1,048th battery swap station and 1,777th charging station in China, with two 180-kW supercharging piles. The opening of the station marks the official start of NIO's partnership with Shell in the electric vehicle energy sector, the company said.

What does the shell-BYD tie-up mean for China's EV market?

Market observers said the Shell-BYD tie-up confirms China's status as a leading center of EV production and sales, which is attracting more international players to its rapidly growing EV charging sector. Shell and BYD said they intend to form a joint venture to develop EV charging networks in China.

How many EV charging points does shell have in China?

Shell operates some 1,900 service stations in China. More than 2,300 public EV charging points are installed at its stations and dedicated EV Mobility Hubs. Global oil and gas giants have been saying they are keen to invest in China's EV industry.

Where will shell & BYD collaborate?

The partnership will start in China and Europe and will extend to other regions across the globe. Based on the agreement, Shell and BYD will collaborate in the areas below:

It is understood that the project by Dongfeng Industrial Co., Ltd. and Tianjin Lishen Battery Co., Ltd. invested in the construction of Dongfeng Power Battery Co., Ltd., located in Shiyan Economic and technological Development Zone New Energy vehicle Industry Park, a total investment of 500 million yuan, construction began in September 2018 ...

Shell Energy and The GPT Group partnered on a BESS at Chirnside Park Shopping Centre.
