DeltaSol &#174; CS Solar controller. The DeltaSol &#174; CS/2 and CS/4 controllers are used for speed control of a HE pump in small standard solar thermal and heating systems. They are equipped with a PWM output as well as with an input for a VFD Grundfos Direct Sensor(TM) which enables precise heat quantity measurement.

PWM stepless high-frequency soft unloading. High performance and stable chip control. The inner circuit board of the controller is sprayed to prevent dust, moisture and static electricity. Wuxi Smaraad New Energy Technology Co., Ltd. was established in 2015 and is headquartered in ...
