

Where can I buy solar panels?

You can start with CNET's best list of solar panel companies. You can even shop for solar panels at major home goods stores like Home Depot. Stores like this can set you up with professional installation to help you get a residential solar panel setup. [Considering Solar Panels?](#)

Which solar panels are best for your home?

SunPower, REC, Panasonic, Moxon, and Jinko Solar offer the best solar panels. The type of solar panel, power output, efficiency, performance in warm climates, warranty, and price are the key factors to assess when comparing solar panels. The best solar panel for your home can depend on your roof space, shading, and climate.

How do I get a great deal on solar panels?

The best way to get a great deal on your solar panel system is to compare quotes based on cost, equipment, and installer reputation. Historically, many solar shoppers only received one solar quote from a door-to-door salesperson or a cold call. But how can you feel confident in your solar decision if you only see one quote?

How do I choose the best solar panel for my home?

When choosing a solar panel brand, be careful to make sure that the company you choose will still be around to honor your warranty. Typically, larger corporations like REC and Q CELLS are safe bets and highly bankable. At the end of the day, the best solar panel for home varies from homeowner to homeowner.

Should you buy a home with solar panels?

Help with your home value: If you plan to sell your home down the line, having home solar panels can be a major perk to buyers and can help increase your home's value. Key step toward going green: Since solar is a renewable resource, you can shrink your carbon footprint.

Should you buy a solar PV system for your home?

Well-chosen solar panels can provide a reliable source of renewable electricity for decades, helping to slash your electricity bills and cut your carbon footprint. But buying an inappropriate solar PV system for your home could leave you out of pocket.

Overall, finding the best solar panel brand comes down to comparing their efficiency, temperature coefficient, and warranty. Currently, SunPower, LG, REC, and Panasonic make the best solar panels due to their high efficiencies, competitive pricing, and 25-year warranty.
