

What is a 200W heavy duty solar mat?

When you're travelling off the beaten track and need to be able to rely on your solar panels, this 200w heavy duty solar mat is your absolute best choice. It is made with certified A-grade monocrystalline solar cells with solid copper cell backing, extra-thick 1680D canvas and our exclusive Crocskin<sup>®</sup> cell armour.

What is a 12 volt solar blanket/mat?

Our 12 Volt 200W folding solar blanket/mat is compact and light and unfolds in just a few simple steps, which makes it easy to take with you on your next trip. This high-quality A-grade solar panel mat offers a large capacity of 200 watts of solar, and despite its compactness, it gives you maximum power.

Can a portable solar mat be used off-grid?

Please note that this portable solar mat is designed for camping use, not for off-grid living. If you require a permanent fixture where the panels will be in the elements 24/7, we recommend you consider our 170W Fixed Solar Panel instead.

How many watts can a a-grade solar panel mat hold?

This high-quality A-grade solar panel mat offers a large capacity of 200 wattsof solar, and despite its compactness, it gives you maximum power. Because this is a flexible solar panel, you can place it flat or at an angle.
