

Solar Street Light 12V Round Light Panel Accessories

This solar street light has a 100W solar panel that converts sunlight into electricity, which is stored in a high-capacity 40,000mAh lithium-ion battery. The battery can provide up to 12 hours of lighting on a single charge, and it has a lifespan of over 5 years. This means that the light can operate all night long, even during cloudy days, without the need for external power sources.

9 meter pole - Galvanized Locally manufactured 330w solar panel - Mono Cystalline 80w Lumileds CRI80 LED chip - 12800lm MPPT Smart LED regulator, built in day / night sensor, IP68, 4 stage dimming Over temperature, over charging & over discharge pr

Buy robust 12v DC lighting and fixtures for off-grid solar lighting systems. Full product warranties plus 30-day money back guarantee. Ask us!

Solar street lights are raised light sources which are powered by solar panels generally mounted on the lighting structure or integrated into the pole itself. The solar panels charge a rechargeable battery, which powers a fluorescent or LED lamp during the night. Most solar lights turn on and turn off automatically by sensing outdoor light using solar panel voltage.

Shop our extensive range of solar panels, solar inverters, UPS and solar batteries for all your energy needs! Our products are made with high-quality components that will last. We provide solar solutions for every need - from a small lamp to ...
