

What are enclosure solar shields?

Enclosure solar shields are specialized accessories designed to protect outdoor enclosures from the direct effects of solar radiation and solar heat. These shields are particularly crucial for enclosures that are exposed to direct sunlight, which can significantly increase the internal temperature due to solar heat gain.

Which sunshades are best for privacy?

For full privacy, check out our selection of total blackout privacy sunshades. If you are looking for an exterior shade that can withstand winds up to 50 MPH try our Citadel(TM) Zipper Track System. Transparent outdoor solar shades provide heat blocking & UV protection to your outdoor spaces. Customized, perfect for porches, patios, pergolas & more.

What is a pre-engineered sunshade?

Fully tested and factory fabricated, this pre-engineered sunshade conserves and generates energy, contributing to lower building operating costs. Solar photovoltaic technology blends with sleek design, easy installation and simple maintenance. Check out our Selector Sun Shading Estimator.

What are Intertec protective canopies & sunshades made of?

INTERTEC protective canopies and sunshades made from GRP offer effective protection for your instrumentation. With various designs and sizes, we offer the right solution for every application. By mounting protective covers to your transmitters, you protect your sensitive equipment from environmental influences.

What is a Tanagra aluminum sunshade?

The Tanagra aluminum sunshade offers a real efficient aesthetic solution for solar protection. The strip's intensity can be adapted according to the luminance and can optimize energetic consumption. Highlights Tanagra ... composite solar shading CELLON - KITA ST. MICHAEL HOMBURG

What is a SD 18 sunshade?

The SD 18 Sunshade is resistant to the heat generated by direct sunlight and UV radiation. It is particularly space-saving and can be extended horizontally without transitions. The rear side can be used flexibly. On the one hand, fittings and other components can be mounted directly on the rear wall.
