In short, the working principle of the DC screen is to convert AC power into DC power to provide power for the protection of electrical secondary equipment, operating mechanism and indicator light. Under normal circumstances, the charging unit will charge the battery and provide DC power to the regular load.

1. Benefits of using DC screen: (1) The DC screen can not consider three-phase balance; (2) DC screen is safe and reliable. The DC panel can fully charge the battery pack in advance when the AC power supply is normal. When the AC power supply is cut off, the battery can still ensure the operation, control, protection and monitoring of the ...
