

Who is a preferred bidder for the Mogobe (Ferrum) battery energy storage project?

Oslo, 30 November 2023: Scatec ASA has been awarded preferred bidder status for the Mogobe (Ferrum) battery energy storage project totalling 103 MW/412 MWh under the first bid window of the Battery Energy Storage Independent Power Producer Procurement Programme (BESIPPPP) in South Africa, by the Department of Mineral Resources and Energy.

How many battery energy storage projects are there in South Africa?

A total of five projects were awarded under South Africa's Battery Energy Storage Procurement Program by the country's Department of Mineral Resources and Energy in March 2023. The projects make up a 513 MW tender and are poised to provide capacity, energy, and ancillary services throughout South Africa.

What is the second bid window for a battery energy storage system?

The second bid window for the program is currently procuring 615 MW/2,460 MWh in battery energy storage systems projects, with bids due by June 6, 2024. The tender calls for the procurement of 616 MW/2,464 MWh of battery energy storage systems in South Africa.

Who are the preferred bidders for a battery energy storage system?

A consortium consisting of renewable energy developer, Mulilo, and independent power producer, EDF Renewables, has been selected as the preferred bidders for three battery energy storage system (BESS) projects in South Africa.

What is the battery energy storage capacity bid window?

South Africa's Department of Mineral Resources and Energy has formally invited interested parties to register prospective bids under the Battery Energy Storage Capacity Bid Window of the Independent Power Producers Procurement Programme (Battery Energy Storage IPPPP). The Bid Submission is scheduled to close on 5 July 2023, at 17:00.

Will Eskom build a battery storage system in South Africa?

South African utility Eskom aims to develop 35 MW/140 MWh of battery storage capacity at its substations in Eastern Cape province. The tender will also accept bids for a 1.5 MW/6 MWh storage system, plus 2.04 MW of solar PV at another substation. Eskom started building the country's first battery energy storage system (BESS) last week.

A consortium consisting of renewable energy developer, Mulilo, and independent power producer, EDF Renewables, has been selected as the preferred bidders for three battery energy storage system (BESS) projects in ...

BESIPPPP is being run by the Department of Mineral Resources and Energy (DMRE), which issued a request

for proposals (RFP) for the procurement seeking five 4-hour BESS projects back in March this year. Four out of five projects have now seen a party given preferred bidder status with a fifth "to be appointed", the South Africa state body said on the ...

South Africa's Department of Mineral Resources and Energy (DMRE) has announced the launch of Bid Window 3 of the country's Battery Energy Storage Independent Power Producer Procurement Programme ...

The Department of Mineral Resources and Energy (DMRE) of South Africa has opened the third bid window for its Battery Energy Storage IPP Procurement Programme (BESIPPPP), which is...

Eskom has launched a new tender for two large-scale battery projects totaling 36.5 MW/146 MWh of energy storage capacity. The state-owned South African utility is seeking companies to...

A consortium consisting of renewable energy developer, Mulilo, and independent power producer, EDF Renewables, has been selected as the preferred bidders for three battery energy storage system (BESS) projects in South Africa.

South Africa's Department of Mineral Resources and Energy (DMRE) has announced the launch of Bid Window 3 of the country's Battery Energy Storage Independent Power Producer Procurement Programme (BESIPPPP BW 3). The tender is calling for submission of bids for energy storage projects totalling 616 MW / 2464 MWh at pre-selected ...

THE DEPARTMENT OF MINERAL RESOURCES AND ENERGY IS PROCURING NEW GENERATION CAPACITY FROM BATTERY ENERGY STORAGE IN ACCORDANCE WITH MINISTERIAL DETERMINATIONS GAZETTED UNDER THE INTEGRATED RESOURCE PLAN 2019. THE DEPARTMENT RELEASED AND ANNOUNCED THE FIRST BID WINDOW ...

The downstream arm of vanadium producer Bushveld Minerals and other industry sources have responded to yesterday's Energy-Storage.news article about flow battery technology's suitability for a tender in South Africa. In comments provided to Energy-Storage.news published yesterday, consultancies Clean Horizon and Harmattan Renewables ...

Oslo, 30 November 2023: Scatec ASA has been awarded preferred bidder status for the Mogobe (Ferrum) battery energy storage project totalling 103 MW/ 412 MWh under the first bid window of the Battery Energy Storage Independent Power Producer Procurement Programme (BESIPPPP) in South Africa, by the Department of Mineral Resources and Energy ...

Oslo, 30 November 2023: Scatec ASA has been awarded preferred bidder status for the Mogobe (Ferrum) battery energy storage project totalling 103 MW/ 412 MWh under the first bid window of the Battery Energy Storage Independent ...

In November 2023, South Africa announced preferred bidders for the first Battery Energy Storage IPP Procurement Programme tender, which - if all implemented in full - would add 360 MW of dispatchable battery storage capacity to the ...

South Africa's first public battery storage tender has awarded preferred bidder status to a consortium of CIP-owned Mulilo and renewables major EDF for three battery projects totalling 257MW/1,028MWh. Mulilo, a South African independent power producer majority owned by Danish investment firm Copenhagen Infrastructure Partners (CIP) and EDF will partner on ...

South Africa's Department of Mineral Resources and Energy has formally invited interested parties to register prospective bids under the Battery Energy Storage Capacity Bid Window of the...

The 513MW battery storage tender in South Africa has challenging domestic content and location requirements while flow battery projects will not meet the RTE requirement, consultants told Energy-Storage.news.

3 ???&#0183; The second Battery Energy Storage Programme in South Africa is a critical measure to assist in providing the ancillary services required by the power system, and increasing the available grid capacity in the North West, Gauteng and Free State Supply Areas. The site-specific BESIPPPP Bid Window 2 is designed to facilitate the procurement of up to 615 Megawatts ...
