

Who is Sunshine PCB?

Sunshine PCB is one of the leading PCB manufacturers worldwide. The company portfolio includes single-sided, double-sided and multilayer PCBs (up to 48 layers) as well as HDI, high-frequency, rigid-flex, IMS and heavy copper... Our vision: to be a leader in the sustainable production of high-tech printed circuit boards. This is the challenge we face.

What makes Sunshine a good PCB manufacturer?

Our goal is the sustainable and "green" production of high-technology products. Sunshine is a direct manufacturer, which means you have a direct relationship with a partner who listens and responds to your needs. Having a wide variety of PCB technologies and materials, Sunshine is the one-stop solution to all your circuit board needs.

Who is Sunshine global circuits?

Sunshine Global Circuits is an international company with locations in USA, Europe, and Asia. Sunshine offers quick turn, prototypes, and production of PCB's in any volume. As a publicly listed company, we have invested over \$100M in our business in the past 2 years. Our goal is the sustainable and "green" production of high-technology products.

Who is Sunshine energy?

With more than 15 years solar inverter and storage system design and manufacturing experience, Sunshine Energy is positioned to provide comprehensive services and product design and strict quality control to help our customers to get the reliable products.

What differentiates SGC from other PCB companies?

SGC is a publically-listed company with financial strength and stability. SGC strategy is focused on high-mix, medium volume requirements across a wide range of markets, including industrial, power/energy, telecom, medical, and automotive.

What materials does Sunshine global offer?

Sunshine Global offers a wide variety of materials, including High Tg FR4, Low Dk/Df FR4, Ultra Low Dk/Df materials, RO4350B, Megtron 6 and 7, EM528K, EM891K, Isola I-Tera M40, Halogen-Free, and materials with low XY CTE. Our primary suppliers are Shengyi, EMC, Isola, and Panasonic.

Quality Raw Materials. Rigid boards are typically made with FR4 which is epoxy resin reinforced with woven glass. Sunshine Global offers a wide variety of materials, including High Tg FR4, Low Dk/Df FR4, Ultra Low Dk/Df materials, ...

Sunshine Global Circuits Attended HKPCA & IPC Show. Learn More. New customer's first order reduction

of \$100! Learn More. Quality is built into each PCB. FR4 PCB HDI Aluminum Rigid-Flex Special PCB Standard PCB. Rigid PCB with FR4 material. Layers count (1L-36 L, and thin boards with 0.2 mm) Minimum line /space (3mil/3 mil) Copper from 1/3 to 6 oz. Back drill, countersink ...

Sunshine Global Circuits Co.,Ltd. is an internationally integrated circuit board manufacturer listed on the Shenzhen Stock Exchange on February 1, 2018. Focused on the multi-variety, small and medium-sized, high-tech business line, the implementation of a global market layout, sales in all over the world, major customers are mostly well-known companies in ...

Sunshine PCB is one of the leading PCB manufacturers worldwide. The company portfolio includes single-sided, double-sided and multilayer PCBs (up to 48 layers) as well as HDI, high-frequency, rigid-flex, IMS and heavy copper

The 20amp-24v MPPT charge controller ideal for photovoltaic systems of motor homes, small homes, caravans. 10-30 percent more energy delivered than their types of charge controllers. Tag: Sunshine MPPT controller

Sunshine Global Circuits is a world-class manufacturer of printed circuit boards. We provide ...

One page summarizing Sunshine material offerings, min/max features, processes, and ...

Intelligent and Smart, High efficiency and Protection reliability, Sunshine Energy offers solar storage system for residential and commercial installations. With more than 15 years solar inverter and storage system design and manufacturing ...

One page summarizing Sunshine material offerings, min/max features, processes, and technical capabilities. Sunshine design guidelines for rigid PCB's. Ideal for PCB designers doing layout or hardware engineers looking for DFM guidance. List of base materials sorted by Df, showing preferred status and leadtime.

Intelligent and Smart, High efficiency and Protection reliability, Sunshine Energy offers solar storage system for residential and commercial installations. With more than 15 years solar inverter and storage system design and manufacturing experience, Sunshine Energy is positioned to provide comprehensive services and product design and strict ...

Why choose Sunshine Global Circuits? What differentiates SGC from other PCB companies? ...

Sunshine Global Circuits is a world-class manufacturer of printed circuit boards. We provide advanced PCB

solutions to leading technology companies throughout the world in Semiconductor, Power & Energy, Medical & Instrumentation, Automotive & Transportation, Telecom & Wireless, Avionics & Aerospace, Display & Lighting, Networking & Storage, RF ...

SUNSHINE PWM controller: Boost Your Solar Energy Harvest\*Maximize your solar power potential with SUNSHINE PWM controller:. Engineered for efficiency and reliability, this innovative device optimizes energy yield and prolongs battery life.\*Key Features:\* English. English; Arabic; My Account. Login; search. My Cart. 0 Item(s) -? 0. There are 0 item(s) in your cart. Subtotal: ...
