

04/06/2024 - 07/06/2024 @ All Day - SEOGS is the market leading energy and offshore event in Suriname and the largest energy event in the Caribbean attracting a regional and international audience. SEOGS 2023 was a resounding success and formally opened by H.E. Chandrikapersad Santokhi, the President of the Republic of Suriname. SEOGS received ...

This is the Energy Report Card (ERC) for 2022 for Republic of Suriname. The ERC provides an overview of the energy sector performance, highlighting the following areas: o Installed Conventional and Renewable Power Generation Capacity

Energy Security: Energy storage systems will help Suriname reduce its dependence on fossil fuels, enhance energy security, and promote self-sufficiency in the energy sector. Industry Outlook The outlook for Suriname's grid-scale ESS industry is positive, with the potential for substantial growth in the coming years.

Developments such as smart grids, energy storage solutions, and the digitization of energy management are revolutionizing how energy is generated, distributed, and consumed. A smart meter, for instance, can accurately monitor energy consumption for households or businesses, providing insights into where and when energy waste occurs.

Elgawa is a trusted leader in Suriname, delivering advanced technical solutions in electrical, plumbing, HVAC, solar, and biomedical engineering for over 66 years. We specialize in helping residential, commercial, and industrial clients cut energy costs and enhance sustainability through customized solutions, including solar systems and backup power generators. Our team is ...
