

Are solar street lights waterproof?

Our solar lights have been tested to be completely waterproof, anti-corrosion, dust-proof and anti-rust. Passed many international certifications such as CE, FCC, ROSS, TUV, UL, Saber, IP67, ETL, CB, GS, CQC 2024 top Ten manufacturers of solar street lights in China? 2024 top Ten manufacturers of solar street lights in China?

What are the disadvantages of solar street lights?

Lead-acid batteries (obsolete): The earliest solar street lights used lead-acid batteries. These batteries are bulky, polluting, low in capacity, low in energy density, and short in life (1-3 years). Ternary lithium battery: high energy density and long life (5-6 years). The disadvantage is that it is not resistant to high temperatures.

Does Cmoonlight offer custom solar street lights?
