

Where is ship generated waste collected in Tuvalu?

Ship-generated waste is the only quarantine waste in Tuvalu and falls under the responsibility of the Department of Marine and Ports. The waste is collected in drop-off waste cages at Funafuti wharf and emptied and collected by DWM and taken to the dumpsite. The condition of waste collection equipment is noted to be generally good.

Is there a collection facility for hazardous waste in Tuvalu?

As there are no storage facilities for hazardous waste such as asbestos or chemicals, there are no collections for these wastes. Ship-generated waste is the only quarantine waste in Tuvalu and falls under the responsibility of the Department of Marine and Ports.

Where is bulky waste collected in Tuvalu?

Bulky and hazardous waste is to be placed either along the collection route or at approved pick-up points to await collection. As of 2016, DSW are responsible for the collection of bulky waste and scrap metal across Tuvalu. In November 2017, it was reported that bulky waste collection services cover approximately 35% of the population of Funafuti.

What is Tuvalu doing about waste?

Tuvalu is in the process of signing and ratifying the Basel Convention on the Transboundary Movement of Waste. The Waigani Convention allows Tuvalu to ship items to Fiji. There is an opportunity for Tuvalu to develop waste legislation and other initiatives. These include:

How much does waste management cost in Tuvalu?

promote appropriate waste management practices for the management of waste at their businesses activities in line with the Policy. Prior to 2015, MSW collections across Tuvalu were charged an annual service fee of AUD\$40.00 per household and between A\$110 to \$410 for commercial collections. Services are now undertaken free of charge.
