Proper Placement for Under Cabinet LED Strip Lighting. Alright, you've got your LED strips. Now, where should they go? Placement is key if you want to get the lighting just right. Focus on the spots that need it most, like your countertop and right under the upper cabinets. Running the strip in a straight line along the bottom of the upper ...

First, under cabinet lighting is resourceful - rather than needing to install an entire lamp fixture or ceiling fixture, under cabinet lights can be installed directly into a cabinet that is already fixed into place. As a result, under cabinet lighting can be very cost effective, especially when considering the total cost of materials.
